

## **FAQ:**

### **Are you closing?**

We're actually growing! We're moving our location to San Luis Obispo so we can care for even more locals. Our same team, personalized service, and custom compounding will continue exactly as before.

### **Will anything about my prescriptions or service change?**

Nothing changes except where your prescriptions are filled. You'll still have the same pharmacist, same formulas, and the same personal care you're used to.

### **How will pickup work now that you're moving?**

We will no longer offer in-person pickup in Cayucos, however, you are welcome to pick up at our new location Monday - Friday 10am - 5pm. Location and dates to come.

### **How long does shipping take?**

We ship via UPS and most patients receive their medications within 1-2 days.

### **Will you still serve Cayucos patients long-term?**

Absolutely. Cayucos will always be part of our story. We will continue to deliver along the coast.
